120W RapidCharge™ Car Charger
with Multi-Port Backseat Charging Hub

GearHub-120W

Designed for those group adventures, Gear-Hub-120W is a car charger that has an extended backseat charging hub, connected by a 1.5m cable, allowing all passengers to simultaneously charge their electronic devices easily. Equipped with a USB-C Power Delivery Port on the car charger and one on the extended charging hub, you can power two devices at 30W each. The backseat charging hub also boasts dual USB Quick Charge 3.0 ports that provide 30W ultimate fast charge in each port, so you can share the power on the go. This stunning car charger also has a real-time LED voltage display screen that keeps you informed about the power your device receives and a multi-protection system so you have a pleasant and safe charging experience.

Back Clip Design

Car Charger with Backseat Hub:
GearHub-120W is a car charger that has an extended backseat charging hub, connected by a cable, allowing all passengers to simultaneously charge their electronic devices easily.

DUAL USB-C

Dual USB-C Power Delivery:
Charge your power-hungry USB-C devices like smartphones, tablets, etc. on the go, with the dual 30W+30W Power Delivery ports, one for the front seat and one for the backseat.

Qualcomm® Quick Charge™ 3.0

Quick Charge 3.0:
The extended backseat charging hub also boasts dual USB Quick Charge 3.0 ports that provide 30W+30W ultimate fast charge for compatible devices.

8.8 LED Voltage Display

LED Voltage Display:
Featuring an LED screen, GearHub-120W comes with a real-time voltage display that keeps you informed about the amount your power your device receives.

Multi-Protection System:
The protection chipset in the GearHub-120W protects your devices from over-charging and short-circuiting.

150 CENTIMETER LENGTH

1.5m Cable Length:
The 1.5m cable that connects this car charger to the backseat charging hub, is the ideal length for your car without causing a mess.

Universal Compatibility

Universal Compatibility:
Rapid charging for just about any smartphone, tablet, or other USB-C and USB-A compatible devices.

Specifications:
- Input: DC 12V-24V
- Output
- USB-A1: 5V/3A 9V/3A 12V/2.5A
- USB-A2: 5V/3A 9V/3A 12V/2.5A
- USB-C1: 5V/3A 9V/3A 12V/2.5A
- USB-C2: 5V/3A 9V/3A 12V/2.5A
- Total Output: 120W
- Cable Length: 1.5M
