Description:

UNITEK Wireless screen mirroring device enables users to project content from your laptop/ tablet/ smartphone onto a TV, monitor or projector without the need for messy cables. This innovative device offers a convenient and reliable wireless solution to stream your multimedia contents with ease.

Product Features:

- **4K@60Hz Ultra Clear Experience:** UNITEK Wireless screen mirroring device supports 4K decoding, delivering stunning 4K@60Hz high-definition output. User can easily switch to a larger screen and enjoy high-quality audio and video contents with friends and family.
- **Screen Mirroring At Ease:** Effortlessly cast and stream contents from Android/ iOS devices, laptops/ tablet. Users can watch video or listen to audio from a small screen to a larger screen (TV/monitor/projector) without the hassle of tangling cables. Enjoy high-definition movies and videos in your living room and create a captivating multimedia experience.
- **Effortless Setup:** Simply plug the wireless display adapter into the TV's HDMI port, connect to Wi-Fi and start streaming without the need for additional apps or Bluetooth connection. Compatible with almost any TV that has an HDMI port, this device ensures versatility and wide-ranging usage.
- **Portable And Versatile:** Compact size (7.2 x 7.2 x 1.7cm) to bring along and use on the go. With no messy cables to deal with and low power consumption, this device is perfect for use in business meetings, classrooms, travels or other entertainment scenarios. Streamline your connectivity and take your multimedia experience to the next level with this compact and efficient device.
- **Universal Compatibility:** Compatible with iOS, Mac OS, Android, Windows devices, ensuring broad compatibility with various smartphones, tablets, laptops, and MacBook Air/Pro. Create a cinematic viewing experience for streaming shows, movies, music, games, sports, photos, live TV, and over 2,000+ apps.
