Description:

UNITEK USB-C Wireless HDMI Extender Kit provides a seamless point-to-point connection between transmitter and receiver. Effortlessly cast anything from PC or laptop to TV, monitor or projector without the need for messy cables. Experience a smooth and effortless casting process with this dependable and convenient HDMI wireless solution.

Product Features:

- **Versatile Casting with Wire-Free Solution:** UNITEK USB-C Wireless HDMI Extender Kit is designed to stream contents from laptops, smartphones, TV Boxes to HDTVs, projectors and monitors. This versatile kit eliminates the limitations of traditional HDMI wiring.
- **Extensive Compatibility:** This Extender Kit offers seamless connectivity and is compatible with a wide range of USB-C devices such as computers, laptops, TV boxes, video cameras and more. Users can disconnect and reconnect the HDMI transmission by a single press of one button.
- **Plug & Play:** USB-C Wireless HDMI Extender Kit leaves the hassle of App installation behind, no WiFi connection required. Experience the ultimate convenience and efficiency with this user-friendly solution.
- **Up To 50M Stable Wireless Transmission:** This kit features a high performance smart chip to prevent signal interference, resulting in minimal delay and lag. Experience uninterrupted streaming and enjoy the transmission of full HD 1080P@60Hz signal in real-time, with a transmission range up to 50m in open fields.*
- **Extremely Compact:** The built-in antenna results in a more compact and streamlined design, making the wireless USB-C transmitter and receiver easy to carry around. It eliminates the hassle of dealing with separate antennas and simplifies the setup process.

*Transmission distance may vary when passing through walls, floors, or ceilings.
