USB-C to DisplayPort 1.4 Cable 1.8M (V1423C)
Supports 4K@144Hz and HDR, Compatible with USB 4, Thunderbolt 3 & 4

Description: This USB-C to DP cable makes it a snap to connect your USB-C-enabled Mac, iPad or laptop to DP-enabled monitor or TV for gaming or video streaming.

Product Features:

- **UltraHD Resolution** - supports resolutions up to 4K@144Hz or 8K@60Hz for feature-rich content even at higher frame rates.

- **Multiple Display Modes** - Allows you to both mirror or extend your USB-C laptop's display to a DisplayPort monitor.

- **Stream with HDCP2.2** - Allows you to broadcast Netflix, DisneyPlus, or any other OOT contents which are digitally protected onto your monitor.

- **Ultimate Compatibility** - Works with a huge range of devices including USB-C-enabled Mac, iPad, XPS, Surface, and much more.

- **Clutter-Free Installation** - At 1.8m in length, this cable eliminates the need for excess adapters and cabling, ensuring a tidy installation.
