# Ultrapro DisplayPort1.4 Active Optical Cable

Support Up To 8K 60Hz & 4K 120Hz  
Long Distance A/V Lossless Transmission

## Products Features:

- DisplayPort (DP) 1.4 specification with 32.4Gbps mass-capacity bandwidth. Backward compatible.
- Designed for transmitting up to 8K@60Hz unparalleled visual, as well as 3D display signal in a lossless way even a long distance.
- Refresh rate at 120Hz while under 4K, ultra-fast motion UHD images to be crisp and razor-sharp, and higher refresh rate when using lower resolution.
- With High Dynamic Range (HDR), contrast, depth, brightness and wider color gamut are shown at ideal values.
- With Display Stream Compression (DSC) version 1.2, increasing the compression ratio up to 3:1 to ensures the increased resolutions and color depths can be transferred smooth, lossless and low-latency.
- With Forward Error Correction (FEC) which overlays the DSC 1.2 transport, addresses the transport error resiliency needed for compressed video transport to external displays.
- DP1.4 expands audio transport capabilities such as 32 audio channels, 1536kHz sample rate and more.
- Made with strong zinc-alloy housing and corrosion-resistant gold-plated connector.
- Thoughtful and reliable latch connector.
- High resistance against surrounding electromagnetic interference. Safe for everyone via the nil-radiation environment.

## Package Content

- 1 x Ultrapro DisplayPort1.4 Active Optical Cable
- 1 x User Manual

## Specification

Model Number (Cable Length)	C1615GY (5M) C1616GY (10M) C1617GY (15M) C1618GY (20M) C1619GY (30M)
Material	Zinc-alloy Housing & Gold-plated Connector
Color	Space Grey
Chip	Optical / Electrical Conversion Chip
Cable OD	4.8mm
