Driving

Introducing ClipMount – your sleek and versatile driving companion. With a compact and adjustable design, this magnetic phone mount is feather-light, offering a secure grip powered by N52 magnets. The innovative 360° rotatable mounting design provides optimal viewing angles, ensuring a distraction-free driving experience. Embrace style and functionality with ClipMount – where efficiency meets elegance on every journey.

## Compact and Lightweight Design

ClipMount is designed to be both compact and adjustable, providing a versatile and space-efficient solution for your device mounting needs. It is also a lightweight yet durable accessory for effortless installation and portability.

## N52 Powerful Magnets

Featuring N52 magnets, ClipMount ensures a strong and secure hold for your devices, offering a reliable solution for keeping your devices in place during various driving conditions.

## AC Vent Mount

Easily attach ClipMount to your air vents, providing a stable and secure grip for your devices. Compatible with both horizontal and grid vents, the secure clamp ensures a steady hold.

## 360° Rotatable Mounting

Enjoy flexible and adjustable positioning with ClipMount's 360° rotatable design, allowing your magnetic phone mount to rotate seamlessly on the Air Vent Base. This feature provides optimal viewing angles throughout your journey, whether in portrait or landscape mode.

## Cradleless Design

The cradleless design of ClipMount allows you to effortlessly set your device in portrait or landscape mode, providing convenience for using music or navigation apps without the need for a traditional cradle.

## Magnetic Ring Design

Boasting a magnetic ring design, ClipMount adds a touch of sophistication to your car's interior, complementing the style of your smartphone for an aesthetically pleasing setup.

## Anti-Distracted Driving

The secure clamp of ClipMount ensures your device is held firmly in place, allowing you to drive without distractions, providing a safe and hands-free experience.
