

High Speed 7 Port USB 3.0 Aluminium Alloy Powered Hub

Turn a single USB-C or USB-A port on your laptop into seven USB Type-A ports. The dual headed USB-A and USB-C cable adds broader compatibility across systems. EZHub-7 does not require any software or complicated installation process, just plug it in and use. It is a compact and immensely handy hub that will never be a burden while travelling. Reinforced built-in cable, sturdy exterior, and heat-resistant connectors make it extremely durable. It is backwards compatible with USB 2.0 devices.

Features

- Turn your PC's USB port into seven USB 3.0 ports for faster data transfer up to 5Gbps and superfast charging.
- Dual-head USB-A and USB-C cable boosts the performance of the powerful hub.
- Compact and immensely handy hub will never be a burden while travelling.
- EZHub-7 is backwards compatible with USB 2.0 devices.
- Start using the hub straight out of the box without any need for additional drivers or software.
- Reinforced built-in cable, sturdy exterior, and heat-resistant connectors make it extremely durable.
- The power adapter provides seamless performance while using high power consumption devices like HDD.
