

Flush Box for AV Range

DESCRIPTION

Introducing the FP-FBOX Flush Box from DYNAMIX, an innovative solution designed in New Zealand for seamless integration of AV components. Its open back design and enlarged tabs make for easy after Gib fitting and accommodate large cables effortlessly, with a secure bracket system ensuring tidy cable management. Crafted from top-notch materials, the DYNAMIX FP-FBOX boasts strip-resistant, self-tapping threads for added durability during installation or adjustments. With a generous 75mm back-to-back space, high versatility, and robust construction, this Flush Box redefines practicality and strength in AV installations, making it an ideal choice for professionals and enthusiasts alike.

FEATURES

- Open back design for easy installation and access
- Space for accommodating large cables, ensuring seamless integration
- Bracket system cable security
- Strip-resistant, self-tapping threads enhance durability during fitting or refitting
- Made in New Zealand from high-quality materials
- Unique design with widened tabs for improved practical performance and utility
- Larger cable capacity to handle various AV setups effectively
- 75mm back-to-back space for versatile installation options
- Easy after Gib fitting, simplifying the installation process
- High-strength design ensures reliability and durability in AV installations

PRODUCT CODE	DESCRIPTION
FP-FBOX	Flush Box for AV Range, Open Back design, Space for large cables. Cables secured by bracket system.
