

Superior Cooling Gaming Laptop Stand

FrostBase

Keep your laptop's performance in-check while gaming or performing any other task with FrostBase. The smart cooling laptop stand features a powerful fan that keeps your laptop cool no matter what processes are going on. With 7 height adjusting options, FrostBase offers the best viewing angle for prolonged usage. The illuminating LED lights add to the décor and complete the gaming aura that most gamers look for. The sturdy, unique construction offers extra space to the users while being compatible with laptops up to 17".

— Features —

The stylish design lets you keep your smartphone for hands-free usage with an additional accessory storage space under the cooling pad to store different accessories.

The laptop cooling stand easily fits laptops up to 17" and the compact design lets you carry the cooling pad anywhere you go.

The uniquely designed adjustable laptop stand offers 7 different height adjustments to match with your eye level.

The gaming laptop cooling stand features a powerful fan with 1000 Revolutions Per Minute to prevent your laptop from heating.

The laptop stand features cool LED lights, which creates a wonderful gaming aura.
