

5in1 Multi-Connector Cable Charging & Data Transfer Apple Watch Charger

iCharge-Trio

Introducing the iCharge-Trio, your all-in-one charging solution. With its versatile USB-C input and three output connectors, including Lightning, Apple Watch charger, and USB-C connector for your Apple devices and other compatible devices. simultaneous charging of multiple devices is effortless. Experience rapid charging at 60W Power Delivery while enjoying seamless data transfer at 480Mbps. The durable fabric braided cable ensures longevity and tangle-free usage, while its generous 150cm length offers flexibility. Say goodbye to cable clutter with our streamlined design, simplifying your charging experience. Elevate your style and stay powered up with the iCharge-Trio, where convenience meets innovation.

Versatile Charging Options:

With one USB-C input and three output connectors, including USB-C, Lightning, and Apple Watch charger, the iCharge-Trio ensures compatibility with a wide range of devices, allowing users to charge multiple devices simultaneously.

Rapid Charge & Sync Experience:

With 60W Power Delivery, the iCharge-Trio ensures rapid charging for all devices. Its multi-device capability streamlines the charging process, eliminating the need for multiple cables. Additionally, it supports data sync and charge functions, offering a seamless and efficient user experience.

High-Speed Data Transfer:

With a data transfer speed of 480Mbps, users can seamlessly sync files, photos, and videos between their devices, enhancing productivity and convenience.

Durable and Tangle-Free Design:

The fabric braided cable not only provides durability and longevity but also prevents tangling, ensuring hassle-free usage and storage.

Extended Cable Length:

With a generous cable length of 150cm, the iCharge-Trio offers flexibility and convenience, allowing users to charge their devices comfortably from a distance.

Simplified Charging Experience:

As a multi-device charging cable, the iCharge-Trio streamlines the charging process by eliminating the need for multiple cables, reducing clutter, and simplifying charging stations.

Premium Quality and Design:

Designed with user convenience and satisfaction in mind, the iCharge-Trio combines advanced technology with premium materials to deliver a reliable and stylish charging solution.

Certifications:

Colors :

Black, Blue & White

Specifications

Input Rating:
5V/2A, 9V/3A, 15V/4A
Lightning Output:
9V/3A (27W)

USB-C Output:
15V/4A (60W)
Apple Watch Charger output:
2.5W

Wireless Charging Distance:
0.6-1mm
Wireless Charging Frequency:
325KHz
RF Output Power:
≤ 20dBm

Wireless Charging Efficiency:
75%-82%
Data Transfer Speed:
480Mbps
Cable Length :
1.5m
