

2.0 Channel Detachable Soundbar

SBA-40

The SBA-40 Bluetooth Soundbar provides a powerful, high-quality sound option for most classrooms and meeting rooms that use Interactive Whiteboard units that lack built-in speakers or units that would benefit from having supplemental sound. The SBA-40 offers multiple mounting options including attaching it directly to the top or bottom edge of the Whiteboard, wall mounting or can be split into two free-standing Left and Right channel speakers.
