BaseHub-13

BaseHub-13 transforms a single USB-C port into a powerful 13-in-1 workstation for displays, data, charging, networking, memory cards, audio, and peripherals. Dual HDMI and DisplayPort support up to 4K@60Hz, with MST enabling extended multi-screen setups on compatible devices. USB-C and USB-A ports deliver up to 10Gbps data transfer. 100W PD 3.0 pass-through keeps compatible laptops powered. SD/TF readers support up to 2TB, while Gigabit Ethernet provides 1000Mbps networking. A 3.5mm AUX port, durable housing, anti-slip base, and cable storage complete the setup.

- **100W PD** Pass-Through
- **3.5mm AUX** Port Support
- **1000Mbps** Ethernet
- **DisplayPort** Support
- **10Gbps** Data Transfer
- **SD & TF** Card Readers

Triple 4K Display Expansion

Connect up to three external displays through dual HDMI and DisplayPort outputs, each supporting resolutions up to 4K at 60Hz for expanded multitasking, presentations, and professional workflows.

100W Power While You Work

The USB-C Power Delivery input supports up to 100W PD 3.0 pass-through charging, keeping compatible laptops powered while displays, storage devices, network connections, and peripherals remain active.

10Gbps High-Speed Data

Two USB-C 3.2 ports and one USB-A 3.2 port deliver transfer speeds up to 10Gbps, enabling rapid movement of large files, high-resolution media, and business data.

Expanded USB Connectivity

Two additional USB-A 3.0 ports provide up to 5Gbps data performance for keyboards, mice, flash drives, external storage, printers, and other essential connected desktop accessories.

Stable Anti-Slip Design

Double-sided silicone surfaces improve grip and stability on the desk, helping protect connected equipment while reducing unwanted movement during cable changes, device connection, and everyday workstation use.

Integrated 48kHz Audio

A built-in 3.5mm AUX port supports 48kHz audio output, allowing convenient connection to headphones, speakers, and compatible audio systems without occupying an additional USB port.
