Windows macOS

CardHub-4

Promate CardHub-4 expands a single USB-C connection into four high-speed USB-C ports in an ultra-slim, card-sized aluminum design just 8.2mm thick. Its integrated cable storage keeps the connector organized for easy portability. Three USB-C 3.2 ports support up to 10Gbps data transfer, while the full-featured USB-C port combines 10Gbps data, 4K@60Hz display output, and up to 100W PD 3.0 pass-through charging. All four ports operate simultaneously. Plug-and-play functionality requires no drivers, while the aluminum shell ensures durability and efficient heat dissipation.

Four-Port USB-C Expansion

Convert one USB-C host connection into four usable USB-C ports, creating a streamlined all-USB-C workspace for storage devices, displays, charging, and compatible peripherals.

Power While You Work

Support up to 100W USB-C Power Delivery pass-through charging, keeping compatible laptops powered while the hub simultaneously handles data, display, and peripheral connectivity.

Sharp 4K Display Output

Connect a compatible USB-C monitor at up to 4K@60Hz for crisp visuals, fluid motion, extended workspaces, presentations, streaming, and high-resolution creative workflows.

Card-Sized Portability

At only 8.2mm thick and approximately the size of an ID card, CardHub-4 delivers practical USB-C expansion without adding noticeable bulk to everyday carry.

Integrated Cable Storage

The built-in cable management design keeps the USB-C host connector neatly secured when not in use, improving portability while helping protect the cable during travel.

Simultaneous Multi-Port Use

Operate all four USB-C ports at the same time for convenient multitasking, allowing compatible data devices, displays, charging equipment, and accessories to remain connected.

Specifications:

USB-C Host Interface:
USB 3.2, up to 10Gbps
USB-C Data Ports:
3 × USB-C 3.2, up to 10Gbps
USB-C Data Port Output:
5V/1.5A
Full-Featured USB-C Port:
USB-C 3.2
Up to 10Gbps
5V/1.5A Output
Up to 4K@60Hz
Up to 100W PD 3.0 pass-through
Simultaneous Operation:
All four ports
Driver Requirements:
Plug-and-play, no drivers
Hub Thickness:
8.2mm
Cable Design:
Integrated host cable storage
Housing Material:
Aluminium

Packaging Content:

- CardHub-4
- USB-C Cable
- User Guide
